TMDLS

- DOEE has been an engaged partner with EPA as we have worked to revise toxic TMDLs in the Anacostia watershed. We understand that DOEE has not committed to completing TMDLs in this fiscal year because the remainder of their priority area TMDLs are for these toxics TMDLs, which will not be finalized until 2020. EPA also appreciates DOEE's support as we work to respond to the court's decision in the Anacostia trash TMDL lawsuit.
